

## Plain English People Limited

### Testimonial for Grow Marketing

“Grow Marketing has been a big help for me in repositioning and growing my business through practical, achievable marketing initiatives. Anita Fleming has a real feeling for the needs of SMEs. She is a good listener and strives to understand your business so that all marketing work supports your business aims.

“Anita has great skills and knowledge which she is constantly improving and updating. She is both meticulous on details and aware of the big picture. And she practises what she preaches — the way she runs her own business and marketing is an excellent model.

“I would recommend Grow Marketing highly.”
